Winter 2024

Moving *forward* with you in 2024

2023 was an exciting year as we celebrated Forward Financial Credit Union's 75th Anniversary.

The credit union also had two key credit union family members retire; Denise Sauld with 47 years and Brenda Swanson with 42 years. Their experience and dedication will be used as an example as we move forward with you.

I would like to share a few online banking safety tips since the majority of banking is done online.

1. **Password protect your phone, tablet, computer**

Password protect your devices when not in use to prevent unauthorized access and to protect yourself in case your device is lost or stolen.

2. **Don't provide personal or account information unless you initiate contact**

Financial institutions should not ask for you to supply personal information, such as your social security or account numbers, via text or email.

3. **Avoid banking on public WIFI**

Public WIFI isn't necessarily secure. Avoid doing online banking on public WIFI networks. Save that for a secure network at home.

4. **Don't access your bank account from a shared computer**

Avoid accessing your bank account from a computer that is not yours or is a shared computer.

5. **Do Report Lost/stolen cards right away**

If your debit or credit card is lost or stolen, report it right away to your financial institution.

Looking forward to another great year!
