COVID-19 UPDATES

We are here to serve you the way you feel comfortable!

We ask for your patience and cooperation as we
navigate this process together.

We are sanitizing our offices regularly throughout the day

Employees are required to wear masks

Plexiglass shields have been installed at the teller windows & loan offices

Staff temperatures are taken daily

Offices are still drive thru only and loan inquiries are by appointment

WELCOME 2021

Denise Sauld

2020 has been one of the most turbulent years our country has ever experienced.

Through it all, millions of Americans have been able to rely on their credit union for critical life changing assistance. The Pandemic has had and will continue to have a financial effect on our members for quite some time.

We have had to amend our work practices to service our members both remotely and in house. With technology evolving so quickly, we were able to handle members with ease through mobile and online services. With lobby closures, our front-line staff worked extremely hard to handle the additional drive thru window traffic. Enough can't be said for their diligence and dedication to member service.

Navigating the obstacles in 2021 will still be a challenge. The good news is we have a promising vaccine for controlling the COVID-19 Pandemic. If we all focus on COVID-19 recovery, we can win that war. We are moving in a positive direction. Gas prices are still low. Unemployment bounced back after the pandemic; but not to the ratio we would celebrate. Although interest rates are great for borrowers, savers have not been so rewarded.

Our Credit Union implemented many accomplishments. Our Facebook page has presented us with an avenue to advance our many products and enhancements this past year. Our credit card conversion took place in January 2020. The Windows 10 ATM conversion was also finalized in 2020.

Looking forward to 2021 free of COVID-19 and its challenges.
